Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 7-11, drawn to a method for making lignocellulosic boards.

Group II, claim(s) 12-14, drawn to an apparatus for making lignocellulosic boards.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: taking each independent claim of these groups as a whole, the common special technical feature (using a steam injection press to form a lignocellulose board; where leakage of gases is prevented; and a steam generated, gaseous substance emitted, and hot air are captured) is obvious over EP 0 383 572 A2 (abstract; claims 16 and 19; figure 2) and Nishio et al (US 6,083,437; col. 2 line 21 to col. 3 line 61; col. 5 line 37 to col. 6 line 48; figures 1-4). Accordingly, the common special technical feature linking these two groups does not provide a contribution over the prior art.

3. A telephone call was made to Mr. Arnold Krumholz on 12-02-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sam Chuan C. Yao whose telephone number is (703) 308-4788. The examiner can normally be reached on Monday-Friday with second Friday off.
